RoboChef

ACT SUSTAINABLE BUSINESS PROGRAM

Up to $10,000 in rebates

For eligible gas-to-efficient-electric upgrades in the ACT

Ask your assessor about RoboChef

Nominate the model at your onsite assessment; the assessor decides what enters your Action Plan.

MSS2K

MSS2KPRO

MSS400PRO

MSS7K

No RoboChef model is automatically approved. The program is independent and product-neutral.

RoboChef

ACT SUSTAINABLE BUSINESS PROGRAM

How the rebate works

The rebate applies only to upgrades recommended in your ACT Energy and Water Action Plan.

75%

Gas to efficient electric

Up to $10,000

50%

Inefficient electric to efficient electric

Up to $5,000

From assessment to claim

Information checked 12 October 2026. Subject to ACT Government assessment, eligibility and pre-approval. ACT Government does not recommend RoboChef.

RoboChef

ACT SUSTAINABLE BUSINESS PROGRAM

Start with a free assessment

The ACT Sustainable Business Program helps eligible businesses cut emissions, improve energy efficiency and reduce running costs.

01 Book an onsite visit

Technical experts assess your business.

02 Get independent advice

Receive a tailored Energy and Water Action Plan.

03 Access support

Resources, training and rebates may be available.

04 Seek recognition

Eligible businesses can pursue accreditation.

Register. Then ask about RoboChef.

At your onsite assessment, request consideration in your Action Plan.
