## Removable Oil Drip Tray

Easy cleaning and maintenance between services.

BENCHSTAR

# Engineered For Efficient, High-Volume Grill.

Hinged Floating Top Plate

None Stick Sheet

Removable Oil Drip Tray

Digital Temperature Control Panel

The GH Electric Grill Series delivers reliable grilling performance for commercial kitchens requiring fast heat-up, consistent temperature control, and durable construction. Featuring a cast aluminium cooking surface and digital temperature controls, these grills provide even heat distribution for precise cooking across a wide range of menu items.

Built with a stainless steel structure for long-term durability and easy cleaning, the GH series also includes a removable oil drip tray and a floating top plate designed to handle delicate foods without excessive pressure. These features make the unit both practical and dependable in busy kitchen environments.

BENCHSTAR

# Ideal For High-Volume Commercial Service.

The GH Electric Grill Series is ideal for cafés, sandwich bars, takeaway outlets, and commercial kitchens that require quick and efficient grilling. The large cooking surface allows operators to prepare multiple items simultaneously, making it suitable for sandwiches, burgers, paninis, and breakfast items.

Its compact countertop design and precise temperature control also make it a practical solution for kitchens with limited space while still delivering professional-level cooking performance.
