

DREENER

centrifuge dryers

Dreener | Centrifuge Dryers

In combination with the equipment for washing, the DRC700 vegetable centrifuge is a sturdy and extremely reliable accessory, indispensable to round out the equipment of any kitchen that wants to be truly professional.

Washing fruits and vegetables is easy and effective

In food processing, in addition to washing, it is equally essential that the next phase of drying fruits and vegetables be just as accurate and effective. Thus, Firex offers a professional spin-dryer for vegetables available also with speed controller for delicate drying.
