

The latest MF MULTI FUNCTIONAL range of universal peelers have been developed to make food preparation easier and faster.

Designed for efficient and cost effective handling of root vegetables, potatoes, onions, salads and even shellfish, these units are commercial grade tough and reliable as well as being safe and easy to use.

MF peeler models are purpose designed and built to prepare a wide range of food products from the one machine.

Constructed to the highest standards using stainless steel and alloy parts throughout for a long trouble free operating life.

These models are fitted with door and lid safety switch interlocks and air break, and available in a range of capacities for worktop or floor mount.

MF5L

**MF5L (F59/500)**

**CAPACITY 5KG**

Includes 4 minute timer function, suitable for up to 130kg /hr

All stainless steel construction.

Supplied with carborundum peeling plate and hopper liner.

240V 0.25Kw supplied with 10A plug

**MF5/10/15 ACCESSORIES**

DESCRIPTION
Knife peeling plate
Salad basket
Vegetable washing plate
Inlet Hose Kit, (all models)
Mussel washing plate

MF10 -1PH

**MF10-1PH (F59/510)**

**CAPACITY 10KG**

Includes 4 minute timer function, suitable for up to 280kg /hr

All stainless steel construction.

Supplied with carborundum peeling plate and hopper liner.

240V 0.37Kw supplied with 10A plug

MF15 -1PH

**MF15-1PH (F59/520)**

**CAPACITY 15KG**

Includes 4 minute timer function, suitable for up to 400kg /hr

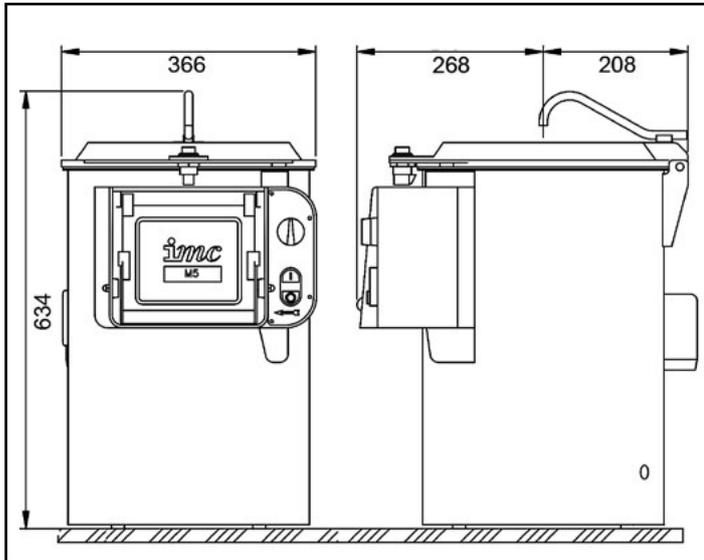

All stainless steel construction.

Supplied with carborundum peeling plate and hopper liner.

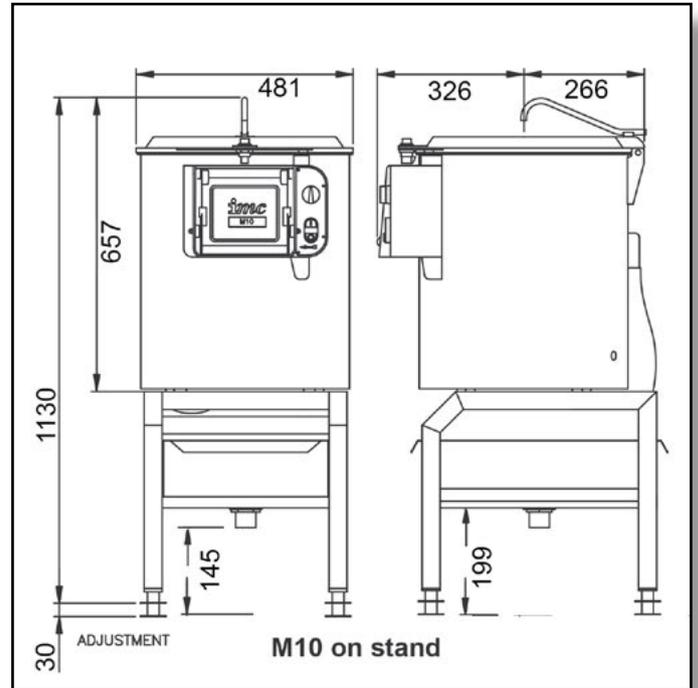

240V 0.37Kw supplied with 10A plug
