MachineTable

Table in high position:

Suitable for RG-100, RG-200, RG-7
and RG-250.

Table in mid position:

Suitable for RG-350, Manual push
feed attachment.

Table in low position:

Suitable for RG-350 with Feed Hopper.

Multi-Purpose for HALLDE machines

- Allows you to set up the ideal work station for fast, safe and easy processing.
- The table can be adjusted (high, mid, low) to ensure an ergonomic working height for our different machine types.
- Suits HALLDE-models RG-100, RG-200, RG-7, RG-250 and RG-350.
- Comes with a gastronorm container 1/1-100.
- Narrow front legs make it easy to place a container trolley in front of the machine.

HALLDE Multi-Purpose Machine Table

FAST, SAFE AND EASY PROCESSING

- The Multi-Purpose HALLDE Machine Table allows you to set up the ideal work station for fast, safe and easy processing.
- Made of stainless steel.
- Has wide rear legs that makes it very steady.
- The feet are adjustable in height to ensure that the machine table is steady even on an uneven floor.
- Has a locking device at the rear that ensures that the machine can not tip over.
- In order to always offer the most ergonomic working position, the table-top can be fitted in high position (mainly for RG-100, RG-200, RG-7 and RG-250) or mid position (mainly for RG-350). Low for RG-350 with Feed Hopper.
- Easily assembled by help of an Allen Key (included).

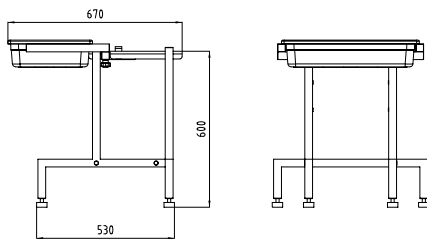

- Comes with a gastronorm container 1/1-100.

- Comes in a flat box 570 x 780 x 190 mm, weight 11,5 kgs.
- HALLDE item no. 25270.

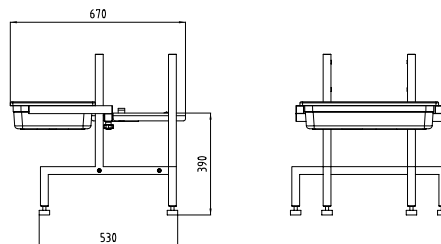

- Has narrow front legs that make it easy to place a container trolley in front of the machine, i.e. it can also be used with the HALLDE container trolley incl. a gastronorm container 1/1-200. Item no. 40721.
